

# Hey youth!

## Global health has never been more important.

**Did you know?** Nearly 2 billion people have no access to basic medicines, causing a cascade of preventable misery and suffering.

**Together, we can improve global health and heal the world.** Join us and helpchildren and their families living in impoverished and vulnerable communities with the gift of healthcare and medicine, something we take for granted when we are sick. A donation to HPIC, an organization here in Canada, allows 10x as much medicine to be delivered to someone in need. Help us help others!
